Office Action Summary

Serial No. 893,122
Art Unit 2882

-2-

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-59, drawn to radiation gating, classified in Class 378, subclass 95.

II. Claims, 60-77 drawn to using a camera to determine patient position or motion, classified in Class 356, subclass 620.

III. Claims 78 and 79, drawn to patient prompting, classified in Class 128, subclass 905.

The inventions are distinct, each from the other because groups I, II and III are unrelated.

Because these inventions are distinct for the reasons given above and because they have acquired a separate status in the art as indicated by their different classifications, restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

Any inquiry concerning this communication should be directed to Examiner Church at telephone number (703) 308-4861.
